MULTIPURPOSE X-RAY AND SURGERY ROOM – WALL MOUNTED GENERATOR

The multipurpose X-ray and surgery room solution is designed to allow greater use of real estate space, where a practice may or may not have enough space for a separate X-ray room or where would prefer to maximize available floor space in the clinic.

This solution is perfect for integrating your existing or new portable x-ray generator with a mobile longtail DR table able to support up to 136kg weight. In built with the world’s first monolithic full-spine flat-panel DR detector. No more long scan wait, no image stitching, no image gaps, and no plate overlap.

It is the first of it’s kind to produce long-bone and full-spine digital studies instantaneously with the highest geometric accuracy.

At 44 inch (112 cm) long, the Longtail can take a full spine 42 x 17 inch (108 x 43 cm).

Lead time: Subject to stock availability, transit times and radiation licensing. Estimated shipping date to be provided once the purchase is confirmed

OWANDY OPTEO DR SENSORS (USB)

Designed to stay with you for the long term, the Opteo digital x-ray sensor is sturdy and resistant. The cable connecting it to the USB interface unit has been specially reinforced to offer greater resistance to impacts and twisting.

Easy to use, Opteo offers the best image quality/price ratio. High-quality images with minimal “noise” make for a fast, exact diagnosis every time.

Size 1: 25,2mm x 36,9mm

Size 2: 30,8mm x 43,2mm

Sensors can be supplied with a computer at extra cost. Please contact ATX on **1800 330 118** if you would this option.
